LB 330
LR 129-133

have to wait and see what happens. Obviously, our major problem, as Medicaid grows and grows, and there's a limit to what you can do in reducing that, by passing LB 330 we're going to say, well, we're not going to grow...state government is not going to grow but we're going to, at least at this point in time, not continue to cut the rest of state government to pay for Medicaid and that can only happen if there is some nominal revenue increases in the form which we discussed last week. With that, I would ask for advancement of the bill.
